REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claims have been allowed because there is nothing in U. S. Patent 5,770,172 which teaches or suggests that the washed metal oxide particles are crystallized by heating or refluxing after dispersing the metal oxide particles in a non-polar solvent, in the manner required by the applicants' claim 1 and the claims dependent thereon. In contrast, the process of U. S. Patent 5,770,172 dries the washed metal oxide particles under vacuum (please see col. 7 lns. 15-18).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The 116 amendment filed on July 11, 2006 has been entered.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy C. Vanoy whose telephone number is 571-272-8158. The examiner can normally be reached on Mon-Fri 8-4:30.
